

**MORE QUOTES ON  
“COSMETIC PEARLS FOR THE GENERAL PRACTITIONER”**

Marty,

Thanks for the best seminar I've had the pleasure of attending in the last 10 years. If you could send me an application, I'll join the AACD and start catching up on all this new stuff I've been missing out on for a while. (Due to ..., I have not picked up a drill in about 3 years.....but that may be about to change, as you have rekindled my interest). Ed Rosen, DDS

I love to learn dental pearls and I enjoy hearing lecturers talk about dental failures and how to correct them. I feel the only thing in life that is easy, is to catch a cold... everything else is hard work. I am lucky to learn from your hard work.  
Nancy Myerson, D.M.D.

**Thanks for the thought provoking program, it was probably old hat for you, but it was one of those AHA! moments for me. Ed Garrett DDS**

*Thanks to you, Marty, for all the pearls--we incorporated a number of pearls right away, and we're working on others. I truly appreciate your candor when you lecture, as well as your easy presentation style. Not to mention the wealth of info. Matt Patterson*

Dear Marty, thank you for your cosmetic dental presentation for the northeast Louisiana dentists, dental hygienists, dental staff, and faculty. Your seminar was perfect for all levels of dental education and interest. Your course was better received than others given in the past; this was evident in the numbers who signed up and stayed for the entire day. We will look forward to seeing you again.  
*Dr. Howard John*

“He’s the best speaker I’ve ever heard!” Great course! Very clear speaker. Very motivating! I will use things on Monday at my office. Favorite lecture so far.”

**AACD 2007 Annual Scientific Session -- comments:** “Excellent course. Best so far. Funny, good tips. Marty presents information in a very engaging manner. Keeps the attention of the audience. Great presentation. Enthusiastic and passionate”.

Hi Marty,

I really have to thank you for doing my patients a favor. I wanted to prove that all these occlusal brownish discolorations are sound. So I bought these tiny burs you had recommended (8392.016 fine diamond) and the Heliowflow. Before I knew it, most of them were too big to place the flowables in. They were real cavities. AAAAhhhhh! I can't believe it!!! It's a real eye-opener to look at these teeth in a different light! You were right. They were decayed.

Thank you again! Cynthia

I have heard your course twice - it has a lot of value.

*Mickey Bernstein, President-Elect AACD*

Marty, congratulations on your electrifying and inspiring presentation. In a few hours you really expanded my knowledge in cosmetic dentistry. *DK*

Without exception, the packed audience thoroughly enjoyed it, as was demonstrated by their evaluation forms. The day flew, no-one left early, and all present were both informed and entertained. PS

Hello Dr. Zase, I would like to thank you for your wonderful course in the Midwinter meeting in Chicago. If I could rate you more than 4 I would do it....not just because you gave us very interesting information ..but with a way I couldn't lose a second of attention ..with some humour and a bit of morals. JW

Bring him back! Best and most useful lecture of them all! Stimulating and inspiring! I learned a lot! *AGD Orlando 2008*

Excellent speaker. No-one left. Connects well with audience. Best speaker I've heard in years. Needed a bathroom break but I didn't want to leave or miss anything. Inspiring. Very informative, practical and entertaining. Great speaker. *2009 Chicago Midwinter*

Hi Marty, Was at your class in Indy recently --- no more sensitivity with my composites!!!!!!! *Kelley J Miller, DDS*

I just attended your informative lecture of "Cosmetic Pearls". In all my years, this is by far the BEST lecture I have ever attended. I was very impressed with your knowledge, directness and honesty. Thank you .Dr Steven J. Adlow

I have taken away much more than I ever expected. Practical, real life, applicable to my practice. Thank you Marty, your joy in teaching is evident. *CEC, LSU Shreveport, 2010*

Excellent course. Got people involved. Down to earth. I couldn't take a break because I didn't want to miss anything. Comprehensive. Truly useful info. *Excerpts: Oregon Dental Conference 2011 (average evaluation 4.8 out of 5)*

WOW! I thought I was doing a good job with my posterior composites. Your lecture blew me out of the water...in a great way. Monday, I can step up to the plate and deliver a superior service to my patients thanks to you. I didn't realize how much better I could be doing posterior composites. So thank you for your service to me, to dentistry in general, but most of all for my patients. They may never meet you in person, but they will surely feel your effect. *Kevin Norige*
